Platform Overview

Shortest Description: AI-native workforce management platform for HR, IT, and Finance

Short Description: Rippling is the AI platform that manages HR, IT, and Finance, giving Rippling AI the data and permissions it needs to help manage your company.

Generic Rippling Description: Rippling is the AI workforce management platform that connects HR, IT, and Finance — giving Rippling AI everything it needs to help run your company. Because employee data, permissions, and approvals all live in one place, Rippling AI has a complete view of your business and can take action quickly and safely, across the entire employee lifecycle, from hiring to benefits administration to access management. Automate business tasks, ensure compliance, and streamline approvals with workflows that understand your organization. Enjoy timely payroll, real-time financial visibility, and dynamic spend policies that adjust as your business changes. Simplify IT with device management, software access, and compliance monitoring, all from one dashboard. Because Rippling AI works from a single source of truth instead of disconnected systems, your business can save time, reduce costs, and enhance efficiency — with the trust and safety that comes from unified data and permissions. Experience the power of AI-driven, unified management with Rippling today.

Rippling Finance Description: Rippling Finance is an all-in-one finance platform for managing expenses, corporate cards, bill pay, business travel, and payroll—powered by AI that handles your busywork automatically. Finance teams use Rippling Finance to close their books up to 7x faster, cut spending by ~5% through better controls and cash back, and 10x their output without adding headcount. Companies of all sizes have switched to Rippling Finance to eliminate manual work, gain real-time financial visibility, and focus on growth instead of chasing receipts.

Rippling IT Description: Rippling IT is a unified platform for identity, device, access, and security management, giving IT teams a single dashboard to run every workflow — from provisioning apps and laptops to enforcing security policies. Rippling IT manages the entire employee lifecycle automatically, granting and revoking app access, configuring devices, and maintaining least-privilege controls as employees join, change roles, and leave. Real-time monitoring, automated patching, and integrated endpoint protection keep companies compliant, while instant lockouts and secure device recovery make offboarding fast and secure. Because hardware, software, and user risk all live in one system, IT teams get full visibility without juggling multiple tools. Companies use Rippling IT to cut costs, eliminate manual work, and strengthen security — so their teams can move faster. Experience the power of unified IT management with Rippling today.

G2 Generic Rippling Description (Marketing-forward): Streamline your business with Rippling's all-in-one platform for HR, IT, payroll, and spend management. Effortlessly manage the entire employee lifecycle, from hiring to benefits administration. Automate HR tasks, ensure compliance, and streamline approvals. Simplify IT with device management,

software access, and compliance monitoring, all from one dashboard. Enjoy timely payroll, real-time financial visibility, and dynamic spend policies. Rippling empowers your business to save time, reduce costs, and enhance efficiency, allowing you to focus on growth. Experience the power of unified management with Rippling today.

HR & Workforce Management

Human Resources / HR Services / HR Software for Non-Profits / HCM / HR Apps / HR Analytics / HR Compliance

Super Short: Rippling automates critical admin work for payroll, benefits, labor compliance, and more—so you can stay focused on building your business.

Short: Run your workforce on the #1 rated HR system. HR, IT, spend & payroll made easy. All-in-one support for your global business.

Long: Run your workforce on the #1 rated HR system. With Rippling, you can automatically sync employee updates to payroll, onboard and offboard employees in 90 seconds, and access all your employee data in one place. Simplify HR management and enhance efficiency with a unified system that makes employee administration seamless.

Onboarding

Short: Rippling automates onboarding: set up payroll, benefits, and IT for new hires globally in 90 seconds using one integrated system.

Long: Rippling revolutionizes onboarding and offboarding by integrating HR, IT, spend, and payroll into one seamless system. Manage new hires and departures across the globe seamlessly, setting up or deactivating payroll, corporate cards, devices, benefits, and third-party apps within 90 seconds. Rippling's natively-built flows automate every step of the employee lifecycle, eliminating the need for scattered systems and manual work, and enhancing efficiency. Simplify and streamline your processes with Rippling's powerful all-in-one solution.

Compensation Management

Short: Rippling simplifies headcount and compensation planning by centralizing data, automating workflows, and ensuring adherence to budgets.

Long: Rippling simplifies headcount and compensation planning without the need for spreadsheets. All compensation data is unified, automatically mapping each employee to

the right compensation band based on their role. Rippling prevents out-of-band compensation and reroutes issues through a custom approval chain, ensuring smooth management and compliance. Keep your employees and compensation management running seamlessly with Rippling.

Benefits Administration

Short: Manage health, FSA, HSA, life, and more with Rippling's benefits system. Fast enrollment, seamless integration, scalable management.

Long: Rippling's Benefits Administration app simplifies managing employee benefits by unifying health insurance, FSA, HSA, life, disability, commuter benefits, and more in one place. Whether you bring your own broker, access small group plans via Rippling Brokerage, or join Rippling PEO, the Benefits Admin app can handle it all. Direct EDI and API connections ensure seamless integration with carriers and always accurate data. Scalable and user-friendly, Rippling simplifies the complex world of benefits.

Leave Management & Employee Vacation & PTO Tracking

Short: Automated leave tracking: Manage your workforce seamlessly with Rippling Leave Management when employees need to unplug.

Long: Rippling simplifies leave management, automating tedious tasks and eliminating errors for a seamless experience. Our unified dashboard allows you to manage all types of leave effortlessly, providing a clear view of your workforce's leave activity. Enjoy automated payroll adjustments, streamlined calculations, and uninterrupted support. By freeing up HR time and improving accuracy, Rippling takes the hassle out of leave management, so your team can focus on what matters most.

Workforce Management

Short: Rippling's Workforce Management prevents compliance violations, automates tasks, staffs shifts, finds talent, and boosts productivity.

Long: Rippling's all-in-one workforce management platform integrates payroll, time tracking, scheduling, and more into one system. Rippling's products work together in real time to automate routine tasks, eliminating payroll errors and compliance risks. Build fully compliant schedules, automatically track hours from clock-in to paycheck, and pay your entire workforce accurately and on time. Keep an eye on efficiency and staffing needs to cut costs and increase productivity. Reduce turnover costs with flexible scheduling tools and employee mobile access. Maximize your team's productivity with Rippling.

Remote Work

Short: Manage people everywhere: Rippling streamlines remote hiring, onboarding, payroll, and compliance—all in one click.

Long: Everything you need to manage people everywhere – With Rippling, streamline remote hiring and automate compliance seamlessly. Manage all people operations—like onboarding, provisioning, payroll, and more—with ease. Rippling uniquely allows one-click app provisioning for new hires, even without a dedicated IT team. From updating payroll for new state hires to enrolling in required courses, Rippling handles it all. Manage your workforce efficiently regardless of size or location.

Payroll & Global Employment

Payroll/Online Payroll/Payroll for Accountants/Payroll for Mac

Short: Rippling runs payroll in minutes with a 100% error-free guarantee, compliance automation, and configurability. No manual work needed.

Long: Simplify payroll with Rippling—an all-in-one system to manage and pay employees and contractors, no matter where they are located. Rippling lets you run payroll in less than 90 seconds, ensuring timely and accurate pay runs every time. When an employee's role, compensation, or benefits change, payroll is automatically updated, eliminating manual work and human error. Rippling also automatically calculates your payroll taxes and files them with the right federal, state, and local agencies at the right time, every time. Fully customizable and flexible, Rippling Payroll can support your business's unique needs and scales with your business.

Direct Deposit Payroll

Short: Rippling runs payroll in minutes with a 100% error-free guarantee, compliance automation, and configurability. No manual work needed.

Multi-Country/Global Payroll

Short: Run quick, accurate global payroll and compliance with Rippling. One native solution for seamless international payroll management.

Long: Rippling offers native-built payroll for your international entities so you can compliantly pay employees and remit taxes globally. Rippling is the fastest way to run payroll -- from short payroll lead times to deep integrations with HR, benefits, time tracking and more to save time on data entry and improve accuracy on earnings and deductions. From payslips to detailed reporting, Rippling provides clear visibility into each pay run. Run quick, accurate global payroll and compliance in one native solution with Rippling.

Employer of Record (EOR)

Super Short: Rippling automatically handles the hard parts of international EOR entities and compliance. Bring your global workforce and tools into one system.

Short: Hire, pay, and compliantly manage international employees without needing your own international entity.

Long: Rippling supports every stage of international employment. Companies can compliantly extend employment offers in minutes, and Rippling can handle everything from gathering key onboarding details to benefits enrollment to setting up the new hire's email address and laptop. Rippling auto-calculates locally compliant payroll details based on approved timesheets, expenses, benefits deductions, and local tax requirements for clients to review and approve, then Rippling handles timely payments to employees and local tax authorities. Rippling keeps organizations compliant, with always-on proactive alerts, integrated LMS courses for required trainings, and a team of local HR advisors on call for quick, quality responses to support thorny topics, such as leaves of absence or terminations.

PEO

Super Short: Rippling PEO handles the important but tedious admin work so you can focus on what matters—growing your business.

Short: Grow faster with Rippling PEO: automate payroll, benefits, HR, and compliance. Access top health plans and expert HR support.

Long: Grow faster with Rippling PEO, a modern technology and service solution that takes payroll, benefits, HR, and compliance off your plate. Rippling PEO offers health benefits

from top national carriers and automates tedious tasks like setting up state unemployment insurance, filing state taxes, and ensuring compliance across all 50 states. Access SHRM/PHR-certified HR experts for navigating complex HR decisions. Focus on growing your business while Rippling handles the rest.

Contractor Management

Short: Hire & pay contractors in 185+ countries. Rippling simplifies onboarding, tracks time, automates payroll & 1099s, all in one system.

Long: Rippling's Contractor Management system streamlines onboarding, invoicing, international payments, and compliance in 185+ countries. Say goodbye to spreadsheets and paperwork. Manage contractors globally with unified access, local contractor agreements, effortless hiring, data security, and compliance. Gain a powerful, centralized hub for managing your entire workforce with Rippling.

Entity Management

-Resorted to default description OR could use EOR definition?

Time & Attendance

Attendance Tracking (Same as Time & Attendance)

Short: Effortlessly track employees hours from clock-in to paycheck with Rippling.

Long: Rippling's Time & Attendance allows employees to clock in and out via web, mobile, or kiosk, with support for unlimited job codes, geolocation, job costing, both paid and unpaid breaks, and more. Rippling automatically enforces overtime, meal breaks, and other federal, state, and local labor laws based on each employee's work location—so you can be sure your business is always in compliance. In addition to having built-in policies that follow labor regulations, you can build custom alerts, approval chains, and policies based on your business's unique time tracking needs. T&A also integrates seamlessly with Rippling Payroll, ensuring approved hours flow directly into payroll, no manual work required.

Time Clock

Short: Effortlessly track employees hours from clock-in to paycheck with Rippling.

T&A also integrates seamlessly with Rippling Payroll, ensuring approved hours flow directly into payroll, no manual work required.

Scheduling

Short: Easily build schedules to meet customer demand and maximize profitability.

Long: Rippling Scheduling allows you to easily build efficient, compliant, and flexible schedules using real-time employee data on certifications, time off, availability, shift eligibility, and more. You can set up customized rules and alerts, such as notifications for late arrivals or missed shifts, and enforce policies specific to your business, like limiting overnight shifts or prioritizing tenured employees. Rippling helps you control costs by restricting overtime without manager approval. Rippling also maintains and enforces policies that keep your schedules compliant with local labor laws, so you can avoid legal risk and financial penalties. You can enhance employee satisfaction and boost retention by easily building schedules that respect employee availability and allowing for shift swaps.

Rippling Scheduling streamlines scheduling, reduces labor costs, and keeps your employees happy.

Talent Management

Applicant Tracking Systems

Short: Connect and automate every step of the hiring lifecycle with Rippling. Streamlined, efficient, and global applicant tracking system.

Long: Hire on all cylinders with Rippling's Recruiting app, the first applicant tracking system (ATS) that lets everyone—from recruiters to department heads—hire efficiently. Rippling provides a seamless, integrated applicant tracking system for tracking and recruiting local and global talent in one place. Easily publish open roles across job boards and source top candidates. Automate recruiting across teams, customize hiring workflows, empower stakeholders and create advanced, integrated reports. Streamline recruiting with a unified system that enhances data integrity, aligns teams and saves time. Experience data-driven, integrated hiring with Rippling.

Recruiting

Short: Hire on all cylinders! Rippling streamlines recruiting from planning to onboarding, aligning teams and winning top talent easily.

Long: Hire on all cylinders with Rippling's recruiting system, the first ATS that lets everyone—from recruiters to department heads—hire efficiently. Rippling's ATS provides a seamless, integrated applicant tracking system for tracking and recruiting local and global talent in one place. enhances data integrity, aligns teams and saves time. Experience data-driven, integrated hiring with Rippling.

Performance Management

Short: Powered by your employee data, Rippling makes it effortless to set up and sustain performance management across the employee lifecycle.

Long: Build high-performing teams painlessly with Rippling's suite of Performance Management apps. Powered by your employee data, Review Cycles facilitates efficient evaluations with 360-feedback, calibration, and even compensation all in one place. Aligning employee performance with organizational goals while providing real-time insights throughout performance cycles. Cultivate a culture of high performance with Milestone Reviews, triggered off of any employee attribute or event.

Learning Management System

Short: Empower your team with Rippling LMS. Simplify training: automate enrollments, easily track progress, and create custom training programs.

Long: Empower your workforce with Rippling's Learning Management System. With Rippling, you can put your training programs on auto-pilot and set your team up for success. Choose from our pre-built course catalogs for both US and global teams or build your own courses directly in Rippling. Streamline every aspect of employee learning and development with automated enrollment, reminders, and progress tracking. Create a culture of continuous learning and put training and compliance on autopilot with Rippling LMS.

IT & Security

IT Management

Short: Strengthen security in seconds by automating identity, access, device, and inventory management in a single, unified platform, Rippling IT.

Long: Stop juggling different tools for identity, access, device, and inventory management. Rippling IT brings it all together in one seamlessly unified system— deeply integrated and powered by rich employee data. Automate painful, manual tasks like device setup, access provisioning, and offboarding in just a few clicks. Get complete visibility across users and hardware, close security gaps before they become risks, and do it all without needing to hire more headcount. It's the fastest path to scalable, secure IT—without the tool sprawl or overhead.

IT Asset Management (Device Management or Inventory Management)

Short: Automate device inventory with Rippling. Manage shipping, storing, retrieving, and reassignment globally in one system.

Long: With Rippling's Inventory Management, businesses can completely eliminate the hassle of managing IT logistics like ordering, shipping, storing, and retrieving devices. Skip the messy IT closets, trips to FedEx, and missing devices. Rippling will automatically retrieve departed employees' devices and store them for you in secure global warehouses around the world. Easily ensure new hires always have the right devices and tools without any last minute scrambles by reassigning existing inventory or ordering new devices straight from the onboarding flow. Maintain clear visibility into device inventory, new orders, and assigned users around the world with at-a-glance reporting and custom workflows, keeping everyone on the same page.

Identity/Access Management

Short: Get access right, every time with Rippling Identity and Access Management. Rippling is the only solution to combine an HRIS and IdP into one place— unlocking stronger security with airtight, granular access controls across the user lifecycle.

Long: Get access right, every time with Rippling Identity and Access Management (IAM). Combining an HRIS and IdP, Rippling enhances security with airtight, granular access controls throughout the user lifecycle. Easily keep user access up-to-date with a unified source of truth on identity across HR, devices, and third party apps. Gain total visibility and control across the user lifecycle by previewing and managing downstream effects of workforce changes during onboarding, transitions, and offboarding from a single pane of glass. In just a few clicks, leverage hundreds of user fields to create custom zero-trust protocols, ensuring nothing slips through the cracks.

Single Sign-On

Short: Easily implement SSO to secure user access with Rippling Identity & Access Management. ¸

Long: Rippling Identity and Access Management makes it easy to secure user access. With 600+ pre-built integrations and support for custom SAML/SCIM apps, you can easily implement Single Sign-On (SSO) across your tech stack with Rippling IT. Automate user provisioning and group management with dynamic access rules based on employee attributes like role, department, and hundreds of others.

MDM

Short: Securely manage devices with Rippling IT's MDM. Automate lifecycle management, enforce security policies, and gain visibility with data.

Long: Strengthen security and streamline device management with Rippling IT's cross-OS MDM. Gain real-time insight on your security posture and easily troubleshoot with rich

device and user data right at your fingertips. Using that same data, implement custom user-driven security policies in just a few clicks. Rippling IT keeps you in sync with HR with automated onboarding, transition, and offboarding workflows, so you can remotely manage workforce changes with ease.

Password Management

Short: Strengthen company security with RPass, Rippling's hassle-free password management solution.

Long: Ensure security for your company with RPass, Rippling's built-in password manager. Safely manage team passwords without compromising company security or employee productivity. Store passwords in a zero-knowledge vault with enterprise grade encryption instead of Post-its or other insecure methods. Automatically share relevant passwords with employees based on attributes like role, location, and department—ensuring everyone has the exact access they need for their jobs. Then, instantly revoke that access when an employee is offboarded and easily transfer ownership for a seamless transition.

Spend & Finance

Spend Management

Super Short: Get control over company spend with Rippling Spend.

Short: Rippling Spend consolidates all company spending, automates busy work, and offers unmatched control over corporate cards, expenses, bill pay, and travel, all in one platform.

Long: Manage all your employee spending with Rippling Spend. Consolidate, automate, and control corporate cards, expenses, bills, corporate travel, and payroll in one place. Rippling removes the need for multiple systems, automates manual reconciliation, and provides control over company spending. Simplify closing the books and gain clear visibility over all expenditures. Experience seamless spend management with Rippling.

Wireless Expense Management

Short: Rippling Spend consolidates all company spending, automates busy work, and offers unmatched control over corporate cards, expenses, bills, and payroll.

Long: Manage all your employee spending with Rippling Spend. Consolidate, automate, and control corporate cards, expenses, bills, and payroll in one place. Rippling removes the need for multiple systems, automates manual reconciliation, and provides control over company spending. Simplify closing the books and gain clear visibility over all expenditures. Experience seamless spend management with Rippling.
